EngenderingPolicyThroughEvaluation

THE GLOBAL PARTNERSHIP TO PROMOTE THE DEMAND, SUPPLY AND USE OF EQUITY FOCUSED AND GENDER RESPONSIVE EVALUATIONS

www.evalpartners.org/evalgender

EvaIGender+ WORKS THROUGH 5 TASKFORCES:

1. Capacity Building
2. Knowledge Management
3. Communication and Advocacy
4. Fundraising and Networking
5. Participatory Evaluation

TO IMPLEMENT 3 STRATEGIES:

MOBILIZE & ADVOCATE

Impact through social mobilization
Enable interested actors to coordinate efforts to better mainstream gender equality into national evaluation systems and policies.

INNOVATE

Impact through innovation in practice
Facilitate innovation in equity focused and gender responsive evaluations by engaging policy makers and evaluators to promote the demand, supply and use of new resources to achieve gender equality and social equity.

SHARE

Impact through learning and knowledge
Serve as a platform to share knowledge, learning, and experiences on the best ways to strengthen the demand, supply, and use of equity focused and gender responsive evaluations.

WHY EvaIGender+?

Progress on gender equality and social equity is fundamental for realizing human rights for all, creating and sustaining peaceful societies, and building socially inclusive and sustainable development trajectories, where the benefits of development are equitably shared.

What is the EvaIGender+ OBJECTIVE?

The goal of EvaIGender+ is to ensure that all SDGs are achieved with equity focused and gender responsive lenses and that the evaluation field is enhanced with the use of government services effectiveness evaluation framework (GEEF) lenses.

The 2030 Agenda

“Transforming our
World: the 2030

Agenda for Sustainable
Development” calls for

an effective, inclusive and
transparent monitoring

and evaluation framework
at the national, regional

and global levels to help countries

maximize progress in implementing the
2030 agenda and to promote accountability

to citizens. The engagement around

the 2030 Agenda and the Sustainable
Development Goals (SDGs) is an important

opportunity to build on the lessons learnt
from the Millennium Development Goals

(MDGs) to tackle social inequality and
gender inequality in all its dimensions.

In this context, **EvaIGender+** works to

strengthen the demand, supply and
quality of equity focused and gender

responsive evaluations as an avenue to
support accountability for gender equality

commitments in the implementation of
the SDGs.

EvaIGender+ is a global multi-

stakeholder partnership under **EvaIPartners**.
The agencies participating in EvaIGender+

are UN entities, multilateral banks,

civil society organizations, academic

institutions and voluntary organizations for
professional evaluation (VOPs).
